Request for Proposals for a Costing Consultant for the Development of the South African National Strategic Plan for HIV, TB and STI's 2023 - 2028

1) Background

The South African National AIDS Council (SANAC) brings together government, civil society, and the private sector to create a collective response to HIV, TB and STIs in South Africa (SA). SANAC released the fourth National Strategic Plan (NSP) for Human Immunodeficiency Virus (HIV), Tuberculosis (TB) and Sexually Transmitted Infections (STIs) in 2017. The five-year plan (2017–2022), guides the multi-sectoral implementation of strategies to address the impact of HIV, TB and STIs. The NSP also contributes to the efforts of reaching the health-related and other relevant targets of the Sustainable Development Goals (SDGs), including universal health coverage.

The country is embarking on the 5th generation of the NSP for HIV, TB and STIs 2023 – 2028. The NSP is regarded as one of the main documents for the country's response to HIV, TB and STIs since it will take the country towards the target of ending AIDS as a public health threat by 2030. The NSP for HIV, TB and STIs 2023 – 2028 needs to respond to prevalent issues, be agile, radical, and should align with the 4th industrial revolution implications. The NSP for HIV, TB and STIs 2023 – 2028 should provide a sense of renewed hope to people infected and affected by HIV, reflect highly effective and high-impact interventions backed by evidence-informed analysis, to enable the achievement of the UNAIDS 95-95-95 targets which would then propel the country towards the achievement of the agenda 2030 goals.

2) Purpose of the Consultancy

SANAC seeks the services of a Costing Consultant for the development of the NSP for HIV, TB and STIs 2023 – 2028. The consultant will work in collaboration with the

SANAC Secretariat, based at Hatfield, Pretoria. The Costing Consultant is expected to ensure that the NSP document contains all the critical components of the response to the three epidemics, that must be consistent, sound and backed by cutting edge scientific evidence. Several themes have been identified as necessary to form the backbone of the NSP for HIV, TB and STIs 2023 – 2028 including emphasis on its governance, interphase with regional and local level planning, the placement of communities at the centre of the response, the sustainability of efforts, applying the inequality lens in addressing social and structural determinants of the epidemics, increased focus on TB elimination efforts, and incorporation of lessons learnt and leveraging on efforts made during the response to the COVID-19 pandemic.

The general objective of the consultancy is to work in collaboration with Lead writer, other Expert consultants and Technical Working Groups (TWGs) to develop a well-costed NSP for HIV, TB and STIs 2023 - 2028.

3) Scope of Work

The SANAC Secretariat seeks to engage a consultant to work closely with the Support Writers, Expert Consultants to ensure the production of a clear logical NSP for HIV, TB and STIs 2023 – 2028. The Consultant will lead the development and finalisation of the costing component through bringing programme design processes and previous experience from developing and writing successful integrated, multi-sectoral, proposals involving several stakeholders and donors. The Costing consultant will lead the consultations on the following technical areas of the new NSP.

Coordination

- Actively support the costing focal points and costing focal points in the programmatic working groups including: provide orientation, timelines, guidance and tools and feedback on inputs of the working group; ensure that

all draft products are reviewed and validated by this group; maintain close contacts with other resource person on costing as needed.

- Work closely and coordinate with the team of consultants appointed for other technical areas of the NSP development process.
- Write a short inception report and contributions to the NSP roadmap.

Analysis and development of draft budget and related documents

- Develop templates for the summary and detailed budget.
- Develop guidance and tools to orient working groups on costing at all stages of the process.
- Conduct a comprehensive search for unit costs estimates applicable, assess data quality and decide what source data to use; document cost data sources, data quality assessment, and data gaps, and report any adjustment/adaptation in calculations including assumptions made during the costing process.
- Conduct training sessions on costing with the working groups / costing focal points as necessary.
- Conduct budget and allocative efficiency analysis.
- Provide detailed feedback to working groups on draft budgets.
- Develop a draft summary budget aligned with the NSP programmatic areas.
- Develop a financing landscape table, based on data and inputs sought from working groups and other relevant stakeholders.
- Develop inputs for sections of the NSP related to efficiencies, sustainability issues, linkages with health financing.

Finalization of budget and related documents

- Develop a final compiled summary budget aligned with development of the new NSP programmatic areas, incorporating feedback received.
